### Situation Overview

- **California State of Emergency Proclamation**

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the State prepare for broader spread of COVID-19.

- **Global Health Advisory**

On August 6, 2020, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on March 19, 2020, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov>.

- **Executive Order N-33-20**

On August 28, 2020, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **FEMA-4482-DR-CA**

On March 22, 2020, President Trump approved Major Declaration FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

### Vaccine Task Force

- The Community Vaccine Advisory Committee last met on November 30, 2020, to discuss Phase 1a Framework and priorities for Phase 1b. More information on Phase 1a Framework can be found at: [https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Community-Vaccine-Advisory-Committee-presentation\\_11-30-2020v6.pdf#search=phase%201a](https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Community-Vaccine-Advisory-Committee-presentation_11-30-2020v6.pdf#search=phase%201a). The Community Vaccine Advisory Committee builds on the work of the Scientific Safety Review Work Group and the Drafting Guidelines Work Group and will provide input and feedback for the ongoing planning and engagement efforts to ensure equitable vaccine distribution and allocation. These meetings are open to the public, and more information can be found here: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Community-Vaccine-Advisory-Committee.aspx>
- CDPH launched a Vaccine webpage, more information can be found at: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/COVID-19Vaccine.aspx>
- The Drafting Guidelines Workgroup completed the Phase 1a framework which prioritizes the initial vaccine to healthcare workers, medical first responders and long-term care residents and sub-categorizes populations based on facility type, location and other individual attributes. The Drafting Workgroup has begun work on Phase 1b prioritization in coordination with the Community Vaccine Advisory Committee.
- Logistics/Supplies Workgroup – Current statewide inventory for gloves is 145 million as of December 3, 2020. The Logistics Task force has pushed out 11.5 million in the last 14 days and continues to ensure all needs in the field are met.
- Information Management Workgroup – Continued improvements to the CalVax system to support allocation and ordering.
- Communications Workgroup – Continued development and work on education campaign. Extensive research underway to understand current attitudes and beliefs toward vaccination to develop effective messaging. Will be releasing an RFP for a media marketing vendor in the coming week.
- The next Vaccine Task Force meeting will be on Thursday, December 10, 2020.

Early December Public Safety Power Shutoff

December 7, 2020 – 1630 Hours

Report No. 08

### Incident Summary

A significant dry wind event will bring high risk fire conditions to portions of Coastal, Inland, and Southern Regions. Southern California Edison, San Diego Gas and Electric, and Pacific Gas and Electric have activated PSPS protocols due to elevated fire conditions.

## Coronavirus Disease 2019 (COVID-19)

**Report Date:**

**12/7/2020**

**Report Time:**

**1700**

### Situation Cell Overview

Another round of stronger Santa Ana winds possible over southwest California today and Tuesday along with moderately strong north to northeast winds in the Sacramento Valley and Foothills, Greater Bay Area, and west slopes of Cascade Sierra Ranges. Southern California Edison (SCE), San Diego Gas and Electric (SDG&E), and Pacific Gas and Electric (PG&E) have activated public safety power shutoff protocols to mitigate the risks of large fires.

### Key Points

- SCE is currently at De-energization Initiated PSPS Stage.
- SDG&E is currently at De-energization Initiated PSPS Stage.
- PG&E is currently at Activating PSPS Protocols/Potential to De-energize PSPS Stage (12.09.20 Event). As of 1530 hours on 12/7/20, PG&E advised they no longer see a risk in the potential weather event but remain on alert.
- PG&E cancelled the 12.07.20 PSPS event without de-energizing any customers.
- Critical fire weather conditions could lead to rapid spread of any new fires.
- Several new fires have started in the Southern Region.

### Potential Impacts

- High winds in combination with dry surface fuels bring critical fire weather conditions.

### Weather

#### **Northern California Geographical Coordination Center (Northern GACC):**

Moderately strong north to northeast offshore winds with peak gusts of 30-40 mph in portions of the region this morning favoring the Sacramento Valley and Foothills, Greater Bay Area, and west slopes of Cascade Sierra Ranges. Another dry cold frontal push later Wednesday from north to south may bring locally breezy northwest to north winds. Expect peak winds Wednesday night into Thursday morning. Generally higher relative humidity Wednesday and Friday into the weekend. Much lower relative humidity values Thursday into Thursday night.

#### **Southern California Geographical Coordination Center (Southern GACC):**

Northeast to east winds developed across the mountains and below the canyons and passes of Southern California this morning. These strong and gusty winds will continue across Southern California and Central California through Tuesday morning. The potential for large fires will be high across Southern California and elevated across Central California through Tuesday due to widespread strong offshore winds combined with very low humidity. Rapid rates of spread and long range spotting will be likely on new ignitions in windy areas through Tuesday. The large fire threat will decrease significantly across the entire region Wednesday as winds lighten and then become low Thursday through this weekend. Both the dead and live fuels will remain extremely dry through this weekend, but they will be drier across Southern California than Central California. Expect moderate to heavy initial attack across the entire region through Tuesday and then expect light initial attack activity Wednesday through this weekend.

### Santa Ana Wildfire Threat Index

Northeast to east winds of 20 to 40 mph with gusts to 60 mph will surface across the mountains and below the canyons and passes in the morning and then decrease in the afternoon and evening. Humidity will be in the single digits and teens all day long. Maximum temperatures will warm to 10 to 15 degrees above normal, with low to mid 80s across the lower elevations. Both the dead and live fuels will be extremely dry.

Zones	Mon/Dec 7	Tue/Dec 8	Wed/Dec 9	Thu/Dec 10	Fri/Dec 11	Sat/Dec 12
Zone 1: LA-Ventura						
Zone 2: Orange-Inland Empire						
Zone 3: San Diego						
Zone 4: Santa Barbara						

**NO RATING** Winds are either not expected, will not contribute to significant fire activity.

**MARGINAL** Upon ignition, fires may grow rapidly.

**MODERATE** Upon ignition, fires will grow rapidly and will be difficult to control.

**HIGH** Upon ignition, fires will grow very rapidly, will burn intensely, and will be very difficult to control.

**EXTREME** Upon ignition, fires will have extreme growth, will burn very intensely, and will be uncontrollable.

### National Weather Service (NWS)

- Strong winds through tonight are bringing critical fire weather conditions and damaging winds across the Bay Area and in the Sierra Nevada.
- A moderate Santa Ana wind event began overnight and will continue through Tuesday morning.
  - This Santa Ana event will bring critical fire weather conditions to much of southwestern California.
- Elevated fire weather conditions continue statewide with no significant rain in sight.
  - A brief offshore wind event is possible Wednesday night into Thursday for the Bay Area.
- Another Santa Ana event is possible by the weekend, but confidence is low on timing, strength, and duration.
